Dear PSA Constructors,

Thank you very much for the scholarship you have been so kind and generous to award me. Receiving an award such as this gives me the hope I need to continue with my education. Having extra money in the bank for my expenses will be an enormous relief, and will allow me to spend more time on my class assignments.

Because of this award, I will be able to purchase my books for next semester over a month in advance. This will allow me to read the first chapter in each text book before the class begins.

Once again, thank your for your generosity.

Sincerely,

Richard G. Corson
